To Whom it May Concern:

It gives me immense pleasure to recommend Mr. Amer Alchama to your organization.

I first met Amer, when he enrolled at our college as a transfer student. As the transfer coordinator in our department, I was responsible of looking at his previous work and place him at the right level. His transcript was impressive. Last semester I had the pleasure of having Amer as my student in my ARCH3510 design class. And he continued to impress. This is an advanced studio that concentrates on design development. The course addressed the next level of design including integration of structure, mechanical layout, lighting, plumbing fixture selection, interior materials, finishes, colors and furniture layout. His projects were one of the best in the class.

From day one I could see that there was something unique about Amer. He is an exceptional student. During the term, he consistently excelled in all areas of his coursework. He is an intelligent, inquisitive, creative and detail oriented individual who always put forth his best effort. His results from the simplest assignment to the most complex one were always impressive.

With his determination and hard work, I have no doubt that he will succeed in all his endeavors.

It is for these reasons that I highly recommend Amer. If you have any further questions with regard to his background or qualifications, please do not hesitate to contact me.

Sincerely

A handwritten signature in cursive script that reads "Lia M. Dikigoropoulou".
